This adapter allows to connect IP cameras without POE compatibility (or other devices with 12V power supply) directly to a POE switch. The injector/splitter converts the POE voltage from 48V to 12V.

#### Features

- Support IEEE802.3af PoE standard
- Support 10/100M Data Transmission
- DC12V output, used for various small network devices.
- Circuit Insulation blocking, effective protection of powered device.
- Connector : 5.5mm\*2.1mm

#### Specifications:

Standard: IEEE802.3af, 15.4Watts, Power over Ethernet  
POE Power Supply Method: 1/2(+),3/6(-);4/5(+),7/8(-)  
Input: 44-57V DC  
Output:DC12v  
Transmission Rate: 10/100Mbps  
Network Protocol and Standards:  
IEEE 802.3i 10BASET  
IEEE 802.3u 100BASETX  
IEEE 802.3x Flow Control  
IEEE 802.1af DTE Power via MDI  
IEEE 802.3af  
Led Indicator: POE input indicator; PD output indicator  
Working Temperature 0°C~55°C  
Working Humidity: 10%~90%(no condensation)  
Storage Temperature: -20°C~75°C  
Storage Humidity: 10%~95%(no condensation)  
Product Size: 83 x 28 x 22mm  
Weight: 58g
